

Greenhouse emissions

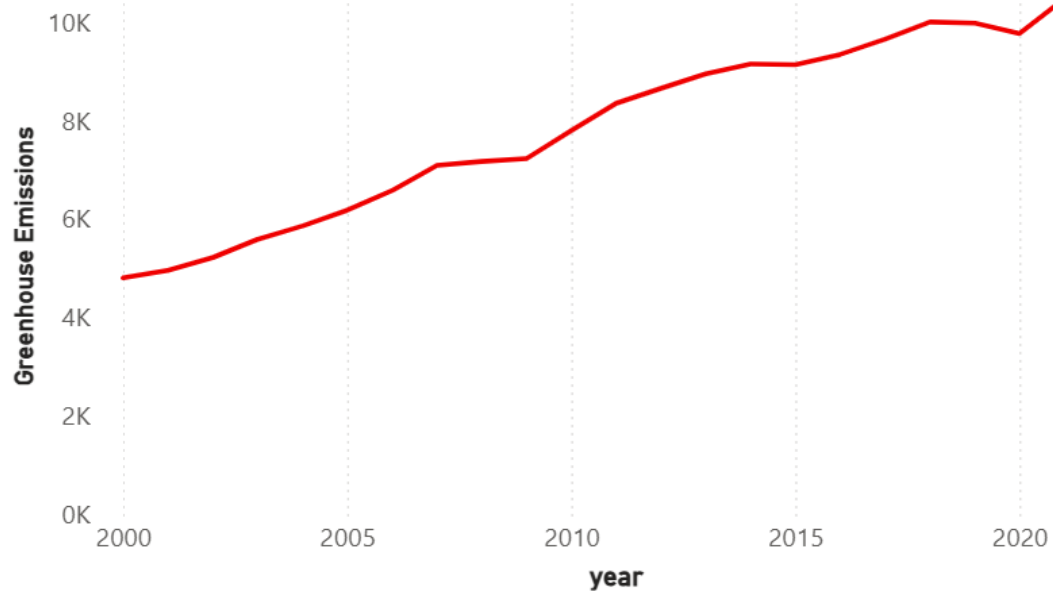

Emissions

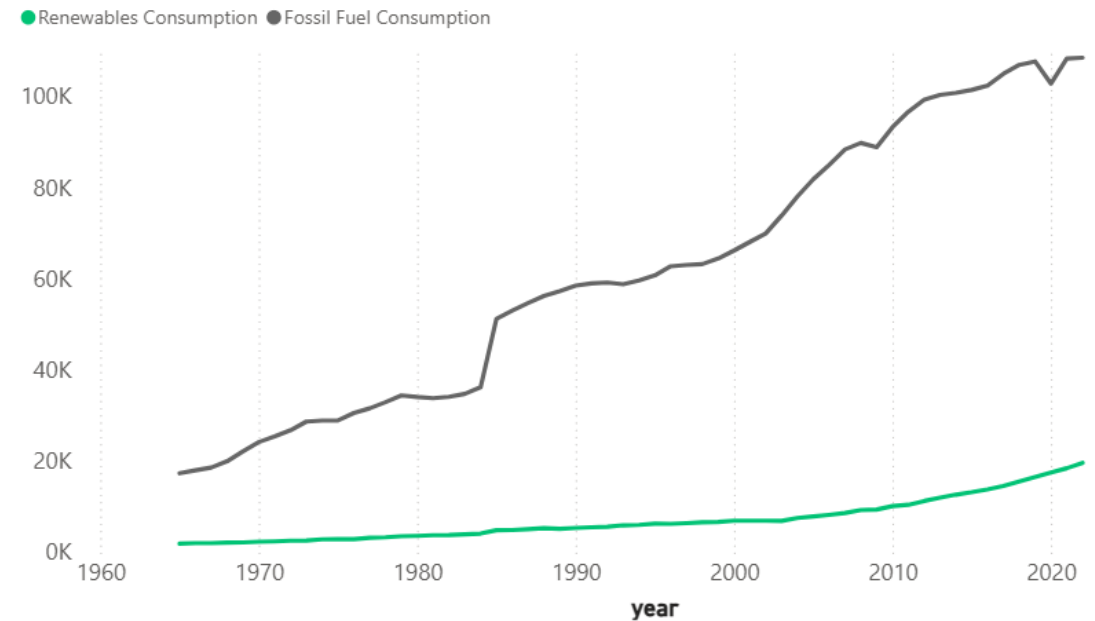

Is Emissions Are Rising?

Emissions Over Time

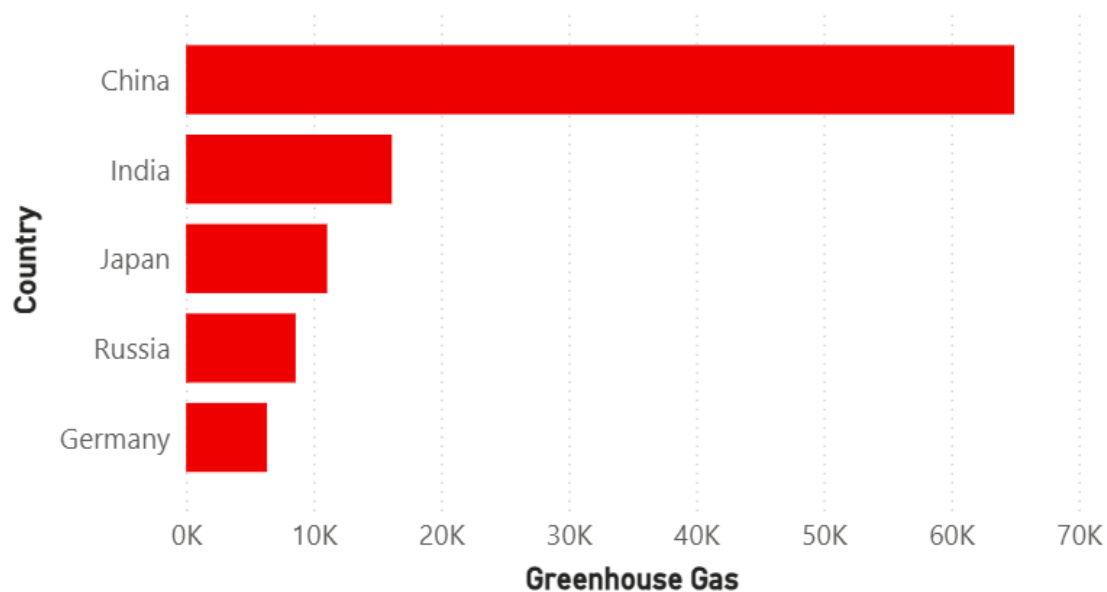

Renewables and Fossil Fuel Over Time

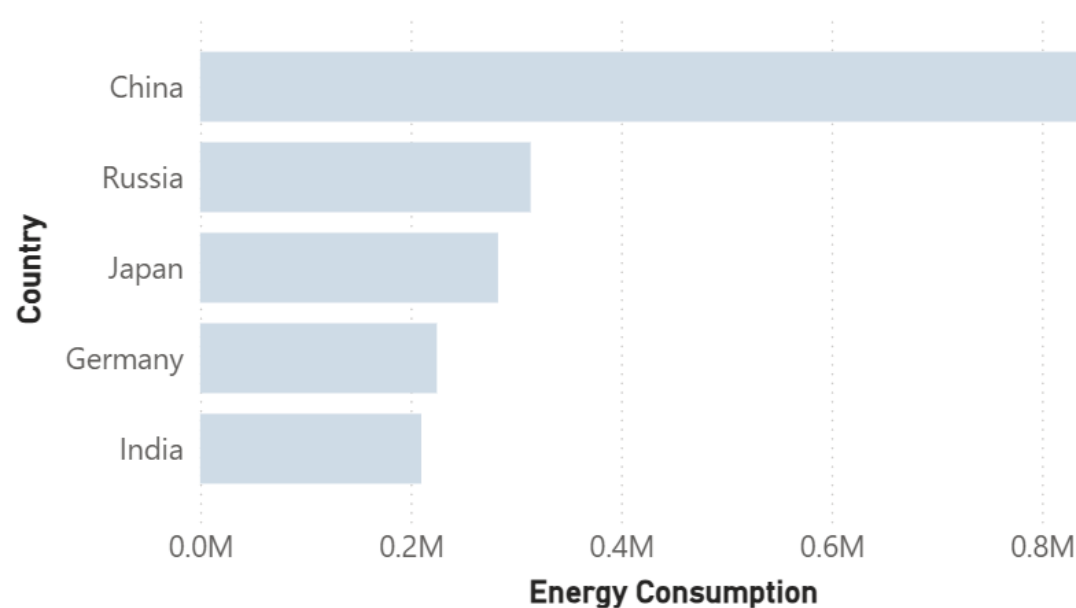

Countries having the highest Greenhouse Gas Emissions

Highest Greenhouse Gas Emission Countrys

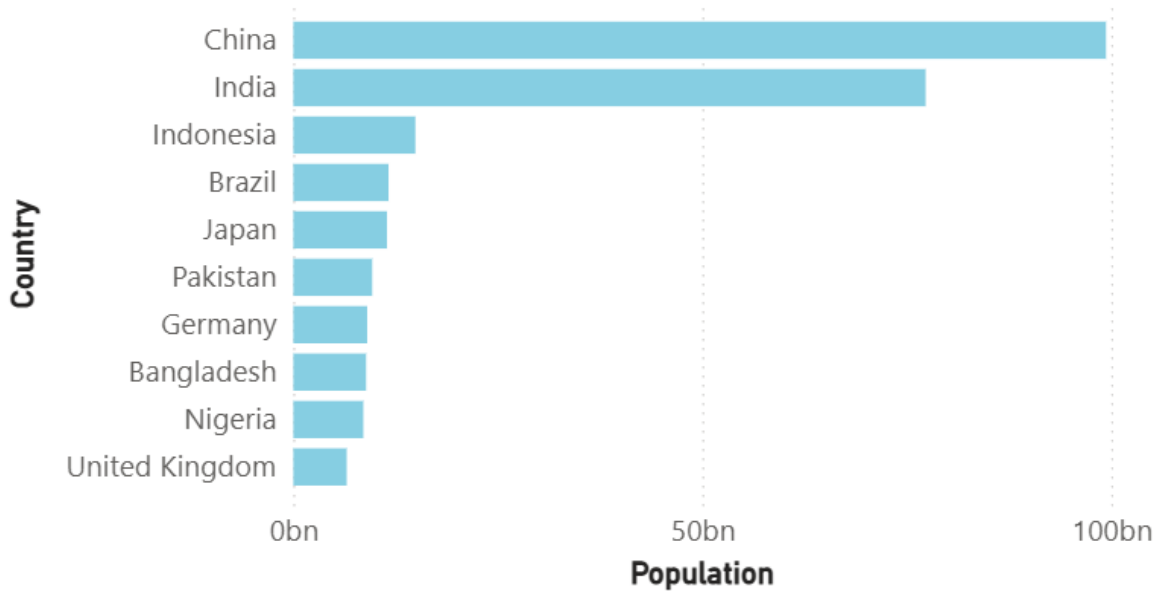

Energy Needed By The Countrys

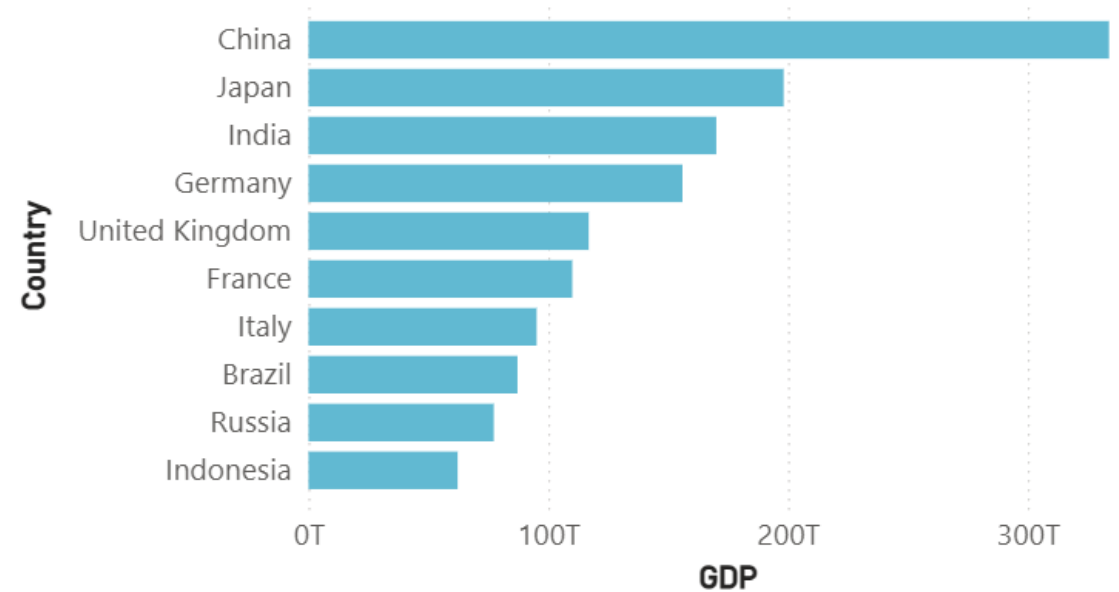

The Factors Effecting The Emissions (China, India, Japan, Germany, Russia)

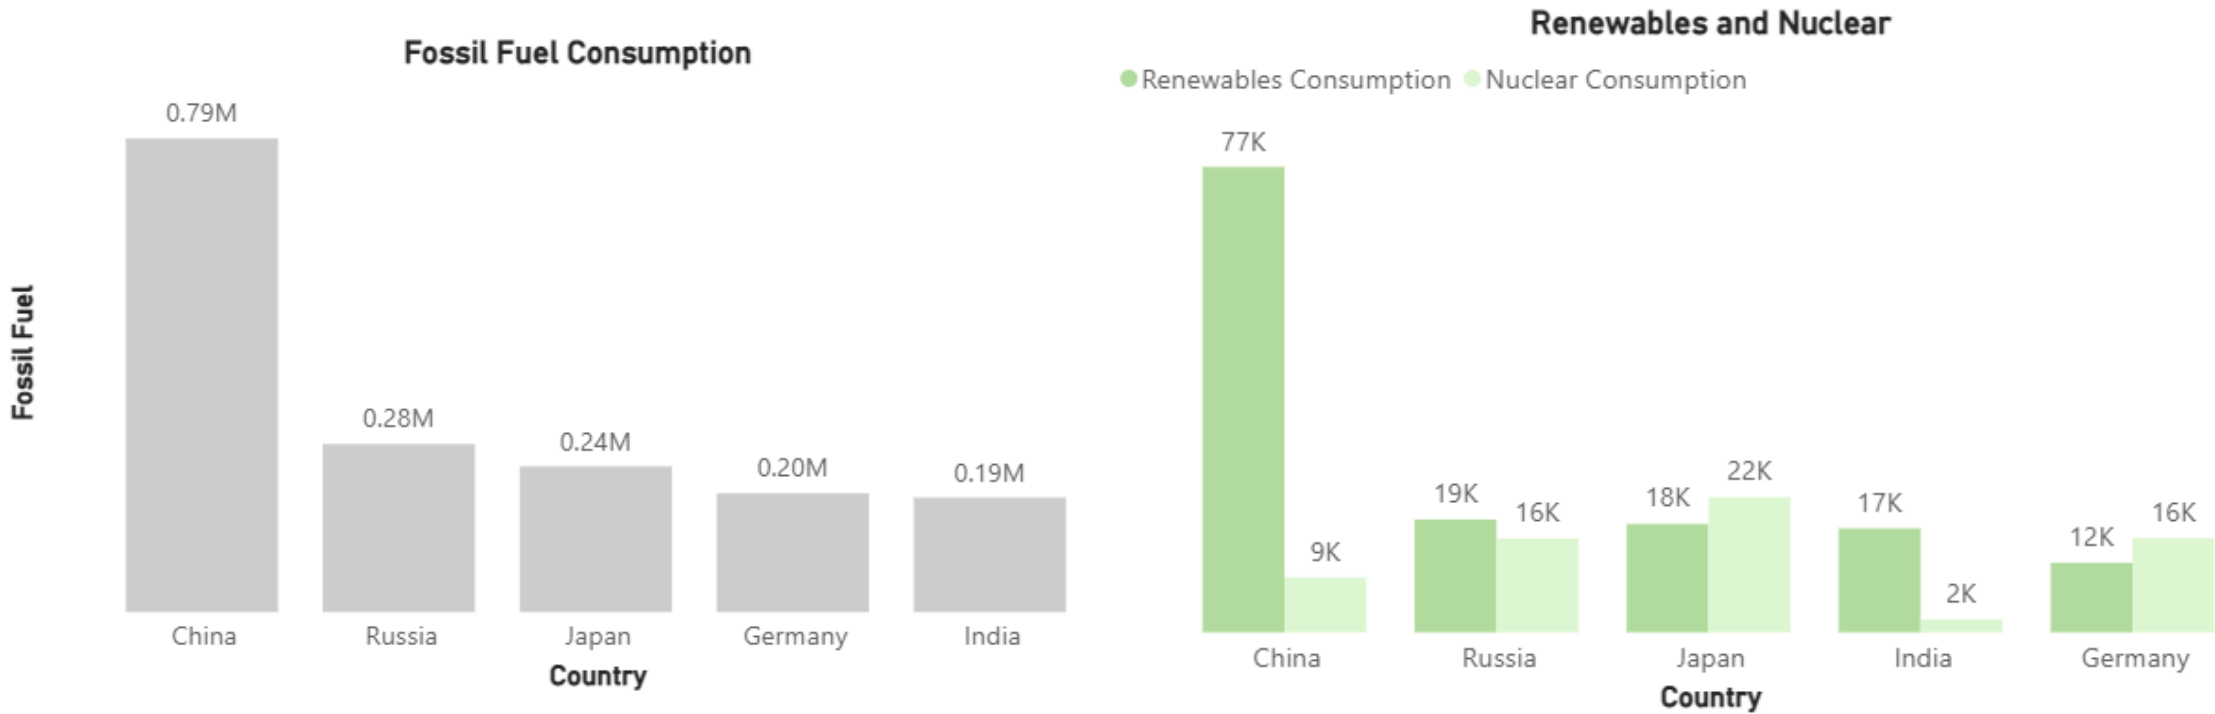

Highest population Countrys

Highest GDP Countrys

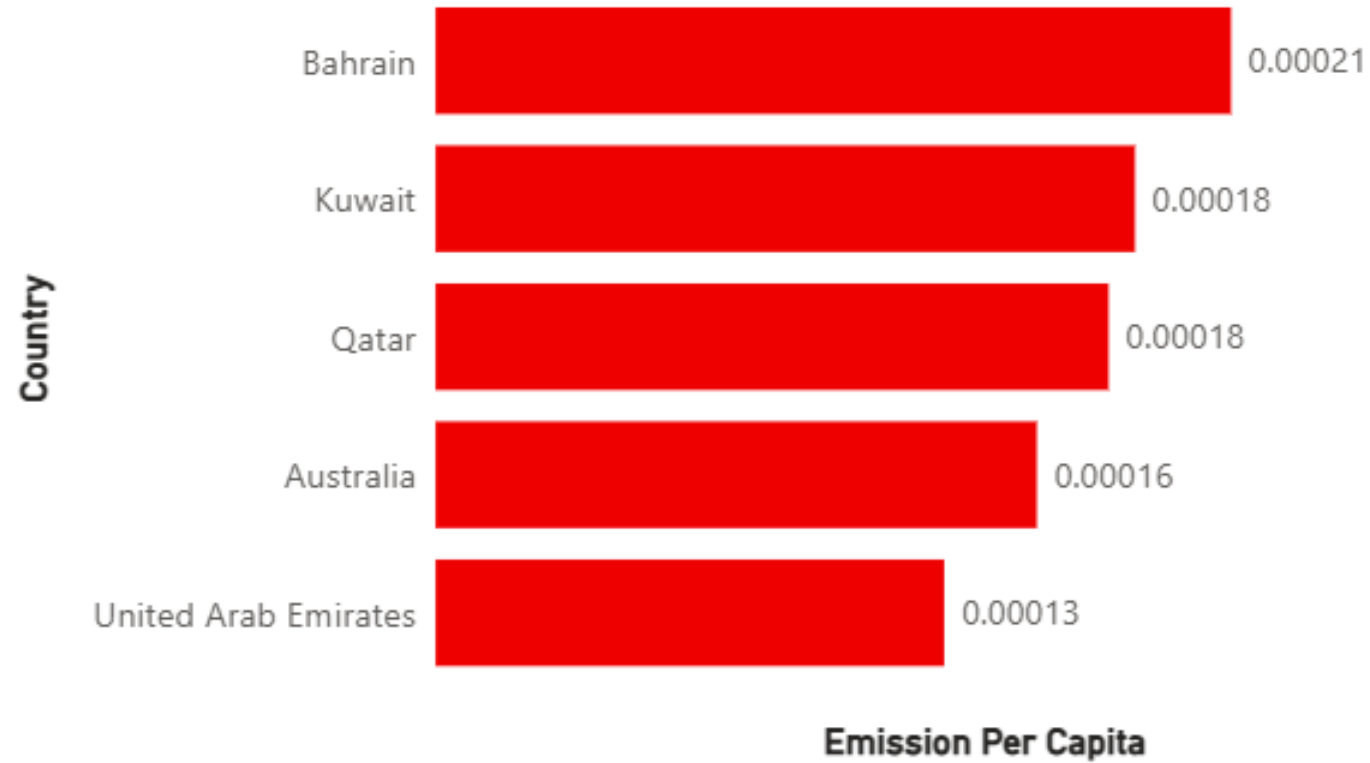

Which energy there are depending on more

Per Capita

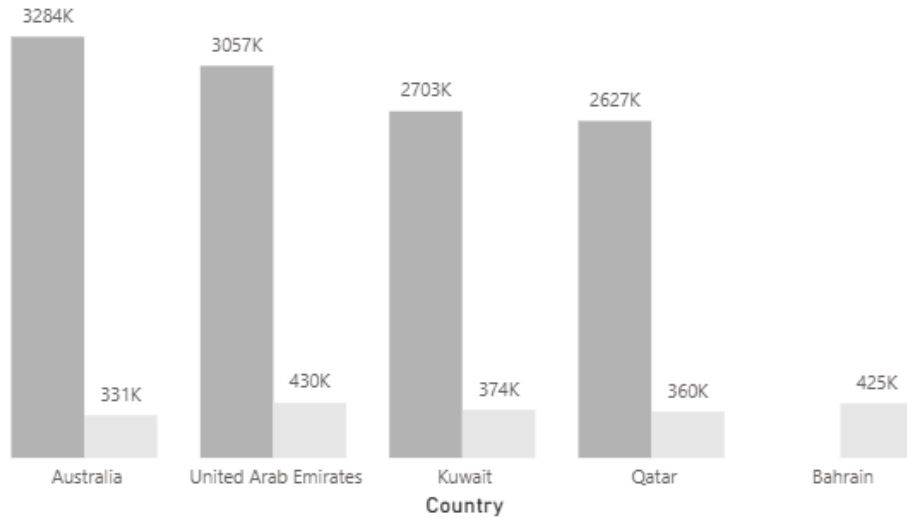

Highest emitter per capita

The type of energy they depend on the most

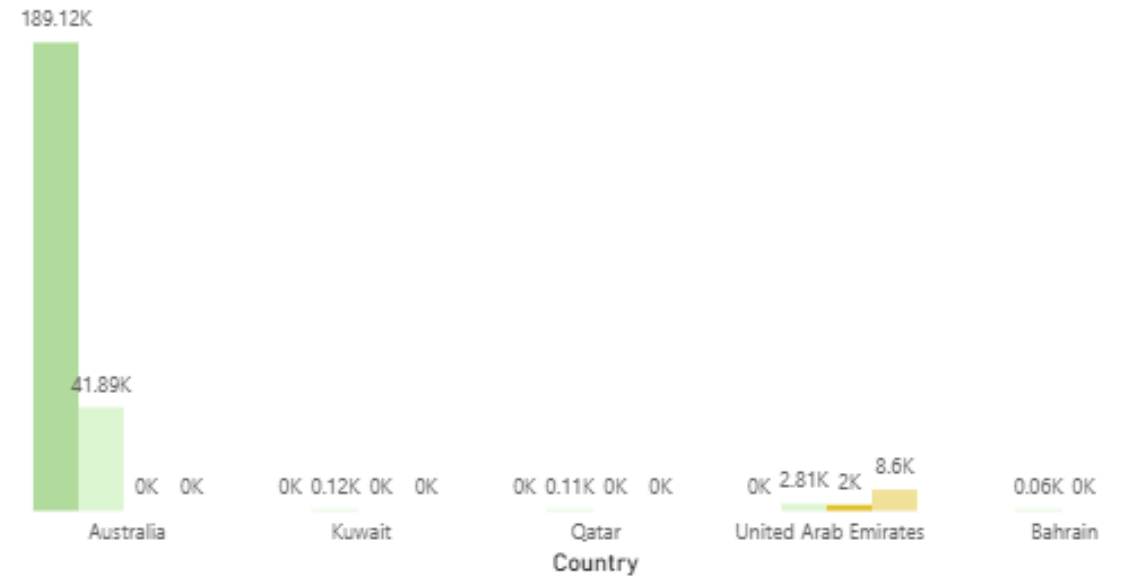

Fossil Fuel Consumption

● Fossil Energy Per Capita ● Fossil Elec Per Capita

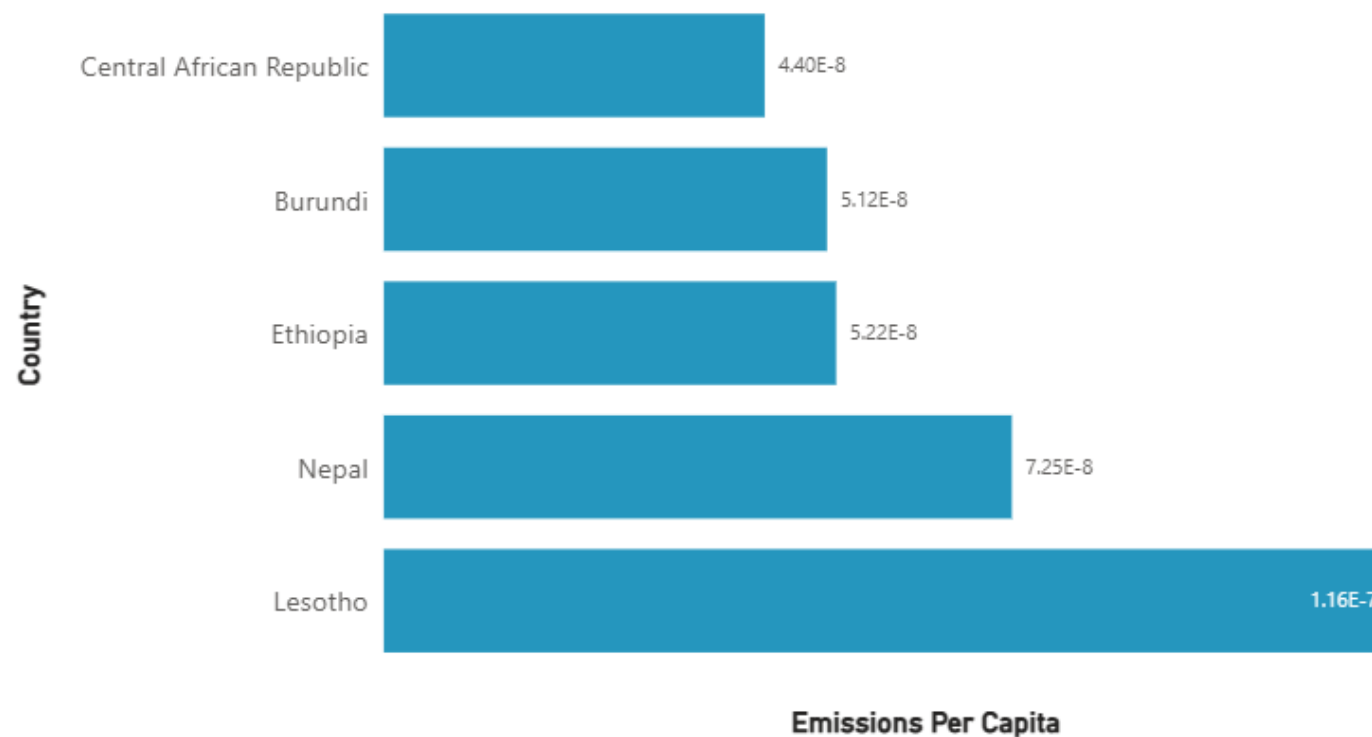

Renewables Consumption

● Renewables Energy Per Capita ● Renewables Elec Per Capita ● Nuclear Elec Per Capita ● Nuclear Energy Per Capita

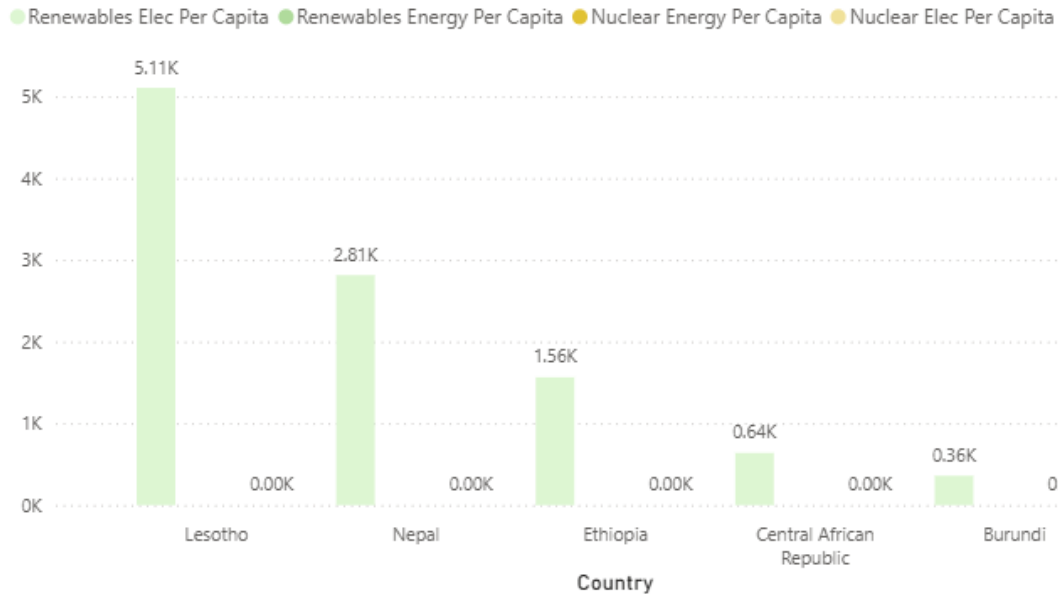

Lowest emitter per capita

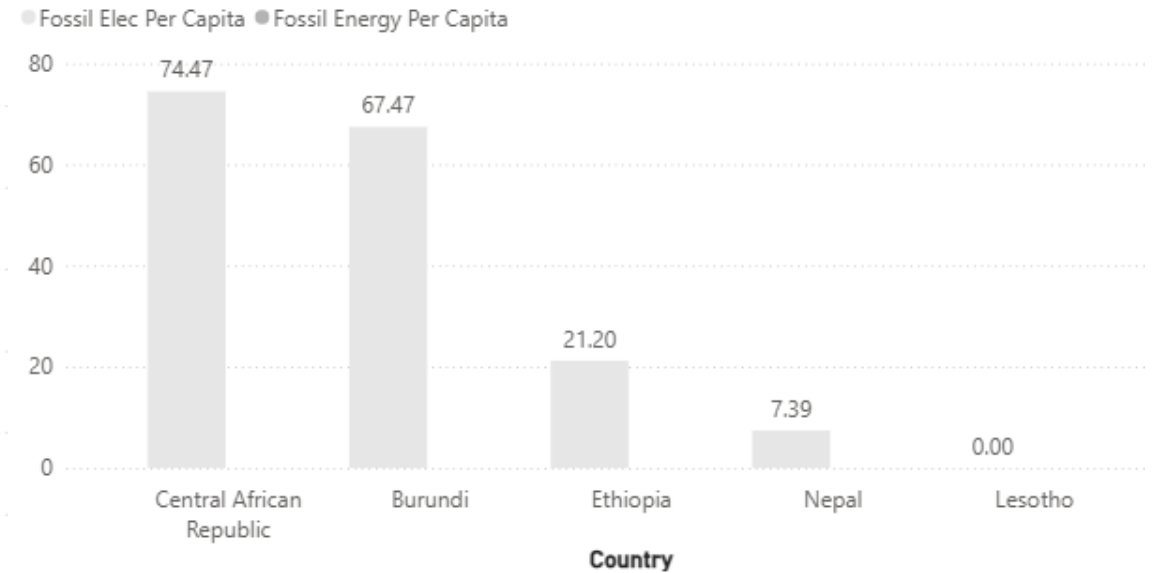

The type of energy they depend on the most

Renewables Consumption

Fossil Fuel Consumption

Thank you
